

INTERNATIONAL COUNTRY CODE TABLE This is a list of all the assigned country codes in the world. The world is divided into 9 zones (numbered 1 to 9) which are listed down the left side and each country code comprises one, two or three digits. Countries with a single digit country code are listed with the country across all columns (e.g. US/Canada +1, Russia +7). Countries with two digit country codes are listed within a large box (e.g. Egypt is +20 as it is zone two and in column 0). Countries with three digit country codes are listed in small boxes along with the third digit (e.g. Morocco is +212 as it is in zone two, column 1, and is prefixed by 2). Countries in brackets are planned or previous designations not currently in use (grey cells)

Delta Call
